WORK EXPERIENCE

Independent Consultant for Digital Transformation, a Public Sector Expert

Self Employed (2020 – today)

- Accompanying projects of organizational modernization and digital transformation while emphasizing bridging between the organization's users and the information systems.
- Defining a work plan and priorities for modernization combining a business focused approach and the "IT modernization hierarchy of needs" methodology that I developed.
- Identifying quick wins that will enable the receipt of budgets and the establishment of long-term infrastructures.
- Organizing and extracting data from legacy systems and distributed sources to enable significant modernization.
- Smart cloud migration - delineation and connection between internal organizational computing and the cloud in a hybrid environment, using existing knowledge and assets alongside creating new engagements and introducing supporting tools.

Head of the Strategy and Customer Relations Department

Israeli Ministry of Education – IT (2019 – 2022)

- Managed a team that shaped the strategy and policy of IT and led the unit (300 employees) in adopting new technologies and working methods.
- Responsible for adapting the technological solutions to the Ministry's hundreds of units while understanding the units' business needs and encouraging their innovation and efficiency.
- Responsible for creating business relationships with technology companies that enable the Ministry of Education to make the next technological leaps, especially in cloud and SaaS environments.

Head of the Internet Department

Israeli Ministry of Education – IT (2009 – 2019)

- Led a radical change in how business units serve the public (3 million parents and students) through portals.
- Published the data from internal legacy systems to the Internet to provide personalised services to users while changing regulations and adopting a culture of transparency.

Senior Team Manager

Matrix - Leading Israeli IT Company (2001 – 2009)

- Business management of Professional Services resources on behalf of Matrix at the Ministry of Education.
- Managed a leading innovation UI team in the Ministry of Education.

Development Manager

Mapa - Printed maps company (2000 – 2001)

- Partner in building the company's IT Department while producing printed information digital.

Head of Web Development Team

Open University (1997 – 2000)

- Led the university into the Internet age by establishing the university's first self-service website, which enabled distance learning.
